No.: RG/1611/55/2023 Date: 19/08/2023

**Bombay High Court implements
Artificial Intelligence Assisted Translation Facility.**

Bombay High Court has constituted an "AI Assisted Legal Translation Advisory Committee" under the directions of the Hon'ble Chief Justice of India.

The main object of the project is to translate relevant and landmark Judgements of the Supreme Court and High Court into Marathi with the assistance of Artificial Intelligence (AI), enabling greater access to justice, spreading legal awareness, fostering legal literacy, and for general convenience and understanding of all citizens.

The translated Judgements are uploaded on the official website of the Bombay High Court under the separate caption "निवडक निर्णय", available by subject category.

Translated Judgments are to be shared with Government Departments, Legal Service Authorities and other parties concerned.

The Supreme Court of India has developed an application called SUVAS. This is a machine-assisted translation tool trained by Artificial Intelligence. This tool is especially designed for the judicial domain. At present, it can translate English judicial documents, orders and judgments into nine vernacular languages scripts and vice versa.

The following tables shows the number of judgements translated into Marathi by the Bombay High Court (the Principal Seat and both Benches at Nagpur and Aurangabad).

Sr.No.	High Court / Bench	Number of Supreme Court Judgements translated as on 01.08.2023	Number of High Court Judgements translated as on 01.08.2023	TOTAL
1	Principal Seat at Bombay	32	16	48
2	Nagpur Bench	15	30	45
3	Aurangabad Bench	12	9	21
	TOTAL	59	55	114

The project is ongoing. Further developments will be notified in time.
